EDUCATION

Shaheed Bhagat Singh State Technical Campus
Computer Science and Engineering Bachelors of Technology
CGPA: 7.3

Ferozpur
2019 - 2023

WORK EXPERIENCE

Software Development Engineer – MARK1 Private Limited Dec 2025 - Present

Mind Magnet – [Link](#)

- Developed a gamified AI-learning platform using Next.js 15 and TypeScript with adaptive difficulty levels.
- Built an AI-driven curriculum generator that creates localized subjects and 100+ dynamic learning levels
- Designed a scalable, production-ready architecture with clean modular code and optimized workflows.
- Tech Stack:** Next JS, Tailwind CSS, Node JS, MongoDB, Redux, Git, JWT, AI integration

Java Development Training – Qspiders – Jspiders 02nd Feb 2023 – Dec 2025

- Developed **full-stack web application** using java, spring Boot and JavaScript.
- Design responsive UIs with **HTML/CSS and Integrated Restful APIs** for seamless frontend-backend communication.
- Built a secure **authentication system** (Email ID + Password) to restrict dashboard access, ensuring data security and compliance.
- Optimized Database queries using JDBC and SQL
- Tech Stack:** Java, HTML, CSS, JavaScript, React.js, MongoDB,

PROJECTS

Smart Contact Management System *Java, Spring Boot, SQL, Thymeleaf*

- Engineered** a scalable Smart contact manager for user can create account and add a contact list.
- Enhanced** Query efficiency by **eliminating manual errors** and enhance read and write operations using Optimized SQL queries.
- Implemented** features like user can create account using APIS like Google and Github and OTP based login.

Car Rental System *React.JS, Express.JS, Node.JS, MongoDB*

- Engineered** a scalable **Car Rental System** using **Java, Collection, React js, and SQL** with a microservices-based architecture, ensuring high availability, fault tolerance, and support for concurrent users.
- Integrated** secure **authentication and authorization** using **JWT and bcrypt**, supporting real-time resume uploads and automated car rental queries, resulting in a faster user process.
- Designed an interactive platform** with smart car search filters, custom car recommendations, and live car-rental interactions, which led to increase in returning users and higher engagement.

SKILLS

Programming Languages	Java 8, JavaScript (ES6+), Typescript,
Libraries/Frameworks	React, Next JS, Tailwind, NodeJS, Collection
Databases	MongoDB, SQL
Version Control & Deployment	Git, GitHub, Aws (EC2)
Testing-Tools	Postman,
Software Technologies	SDLC, STLC, Software Models
AI & LLM Tools	Ollama, Qwen3.2

ACHIEVEMENTS

- Java **Full-Stack Certification** | Jspiders/Qspiders (dec-2025).
- Hackerrank Max-Rating: **5 Star**
- Solved **200+ DSA** problems on various platforms.

CERTIFICATIONS

- Coursiv.com (AI Mastery) Skills:** ChatGPT, Claude, DeepSeek, Mid Journey, Stable Diffusion, Jasper AI, DALL-E
- Hackerrank:** Data Structures and Algorithm in java
- Udemy:** Web Development Boot Camp
